

WHY INTEGRITY

CAN I CHOOSE MY HOME CARE?

You have the right to choose a home care agency and inform your physician, discharge planner or nurse of your choice. It is important that you are in charge of those who take care of you. Choosing the right agency can make a tremendous difference in your overall health.

HOW DOES IT WORK?

We work closely with you and your physician to develop a plan of care to meet your needs. Our nurses and therapists act as partners with you and your physician, forming a team that identifies and manages your health care needs.

HOW DO I ARRANGE FOR CARE?

One phone call to **Integrity Home Care** can help get you the care you need. We will contact and work under your physician's orders to develop a plan of care, order any medical equipment that you may need, verify insurance benefits and arrange for a friendly and professional clinician to visit you in your home.

WHY HOME CARE

IS HOME CARE RIGHT FOR ME?

Home care is designed to maintain safety and independence at home, which can include the assisted living or retirement community you live in. Under the supervision of your physician, home care services focus on assessment, teaching, treatment and rehabilitation. The home care team of clinicians work together to improve your ability to understand and manage your health care needs and reduce your risk for injury or hospitalization.

Following a hospitalization or skilled nursing stay, the home care team will help safely transition you back home or to your new place of residence.

WHAT IS THE COST?

Home care services are 100% covered by Medicare, Medicaid and covered totally or in part by private health insurance. **Integrity Home Care** will help you determine insurance coverage before our services begin. We will also complete the necessary forms and will bill Medicare, Medicaid or your private health insurance company directly.
